What's your biggest fear in your life?

Jessica Henkin ([00:08](#)):

It's not really a fear. It's just a super awareness of how quickly time is passing. That sends a fearful response through my body of we're in our forties. I've finally just gotten to the point where I really like life for the most part. I certainly have crappy moments. I really don't want to go anywhere. I like being on earth with you. What's your biggest fear?

My biggest fear? My biggest fear is that I feel like I don't have stories to tell. It seems like other people have stories to tell. And my story is that I just listen to other people's stories.
